ASL's ATM Solution

ASL has partnered with First Data to provide a comprehensive ATM managed services solution for member institutions. The ASL solution provides our Members access to a complete range of ATM services which can be taken up in whole or part to suit your specific business needs. A full set and forget service is available or just those elements that are required to support your overall ATM deployment approach. Our arrangements also include the option of participation in the Cashcard network.

In addition, ASL has worked collaboratively with Westpac to develop a "direct fee free" ATM network. The ASL/Westpac arrangement allows ASL Members to offer customers access to a national "fee free" network. A key feature of the ASL arrangement with the Westpac network is the support of "onscreen" branding for you in transactions for your customers when using this network.
