

WEARABLES

Payment capabilities for wearable devices are a popular lifestyle choice for customers as contactless payment opportunities expand. For financial institutions looking to expand their payment offerings – into mobile and, to be truly on trend, into wearables – ASL has partnered with global corporation Giesecke & Devrient (G&D) to develop Wearable form factor solutions such as PayBands and PayTags for our Members.

Through this partnership ASL is able to assist our Members pilot and implement innovative Wearable solutions that add to their customer value proposition.

KEY FEATURES OF ASL'S WEARABLES SOLUTION INCLUDE:

- Complementary payment device – in addition to cards and mobile payments on financial accounts
- Can be configured as a prepaid, postpaid, or gift card
- Meets worldwide health and safety requirements
- Food-grade silica gel
- Waterproof

MAJOR BENEFITS TO YOU

- Tailored marketing campaigns
- Value add to existing products
- Cobranding opportunities
- Value for money

WHY ASL?

ASL specialises in providing a range of wholesale payments services to financial institutions. ASL provides high quality, value for money and efficient service to its Members. ASL has partnerships with best of breed service suppliers to ensure that it can bring to its member clients the best solutions possible to their financial payments needs.

ASL has operated for over 20 years supporting Australian Mutual organisations, was the first non-bank to hold an Exchange Settlement Account and has an enviable performance record. ASL is an approved deposit taking institution and is supervised by the Australian Prudential Regulation Authority.

For further information on this, or any ASL product, please contact ASL.
